**DETAILED ACTION**

***Priority***

1. Applicant's claim for the benefit of a prior-filed application under 35 U.S.C. 119(e) or under 35 U.S.C. 120, 121, or 365(c) is acknowledged. Applicant has not complied with one or more conditions for receiving the benefit of an earlier filing date under 35 U.S.C. 119(e) as follows:

An application for patent filed under section 111(a) or section 363 of this title for an invention disclosed in the manner provided by the first paragraph of section 112 of this title in a provisional application filed under section 111(b) of this title, by an inventor named in the provisional application, shall have the same effect, as to such invention, as though filed on the date of the provisional application filed under section 111(b) of this title, if the application for patent filed under section 111(a) or section 363 of this title is filed not later than 12 months after the date on which the provisional application was filed and if it contains or is amended to contain a specific reference to the provisional application. Therefore the application is being examined based on its filing date of December 29, 2004.

***Claim Objections***

2. Claim 1 is objected to because of the following informalities: line 3 "wherein said" applicant does not disclose any limitation corresponding to "said". Appropriate correction is required.

***Claim Rejections - 35 USC § 112***

3. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

4. Claim 1 is rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. Claim 1, line 2, "(the body speakers) and line 4, "(WIRELESS)". Applicant's use of parentheses renders limitations within parentheses indefinite because it is unclear as to whether or not the parenthetical phrase is part of the claimed invention. See MPEP 2173.05(d).

***Claim Rejections - 35 USC § 102***

5. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

6. Claim 1 is rejected under 35 U.S.C. 102(b) as being anticipated by Suzuki (4876724).

Claim 1 Suzuki discloses A "ready-to-wear" wearable speakers vest/jacket device (the body speakers) (Fig. 1 col.1 line 44-46) which comprises of multimedia functions and elements, wherein said including electronic speakers (WIRELESS) (col. 3 line 59-64)

Art Unit: 4178

consisting essentially of components of one or all of the following accompaniments: solar sensor, battery operated or Wi-Fi with a connective compatible plug outlet (col. 5 line 1-2) for the iPod, CD/DVD Player, computer laptops, PDAs, MP3 Player, and other kind of gadgets (col. 4 line 39-42).
